

Professional Summary

Motivated BCA student with 1 year of programming experience in C, C++, Java, and Python. Passionate about software development, problem solving, and building real-world applications. Experienced in hackathons, project development, and team leadership. Seeking opportunities to apply technical skills in software development and continue growing as a developer.

Education

Bachelor of Computer Applications (BCA) 2025 – Present Chhatrapati Shahu Ji Maharaj University (CSJMU), Kanpur, Uttar Pradesh **CGPA (First Year): 7.45 / 10.0**

Technical Skills

- **Programming Languages:** C, C++, Java, Python, JavaScript
- **Web Technologies:** HTML, CSS
- **Core Concepts:** Data Structures Algorithms, Object-Oriented Programming, Problem Solving
- **Tools:** Git, GitHub, VS Code

Projects

AI-Powered Smart Traffic Monitoring and Signal Recommendation System

- Developed an intelligent traffic monitoring system using AI-based vehicle detection techniques.
- Analyzed traffic density and generated recommendations for signal timing optimization.
- Worked with Python-based computer vision concepts to improve traffic flow analysis.

SymmetrySketchAI

- Designed a gesture-controlled drawing application with real-time symmetry assistance.
- Integrated AI-assisted sketching concepts to enhance creativity and usability.
- Focused on user interaction, drawing automation, and graphical design features.

Experience

Hackathons and Technical Projects

- Participated in coding competitions and technology-focused hackathons.
- Collaborated with team members to design and develop innovative software solutions.
- Applied problem-solving and software development skills under project deadlines.

Team Leadership

- Led project teams during academic and technical activities.
- Managed task allocation, communication, and project execution.
- Encouraged teamwork and ensured timely completion of project objectives.

Soft Skills

- Time Management
- Public Speaking
- Team Leadership
- Team Player
- Fast Learner
- Problem Solving

Achievements

- Successfully developed multiple academic and personal software projects.
- Actively practice Data Structures and Algorithms through coding platforms.
- Continuously learning modern software development technologies and tools.

Hobbies

- Learning new programming technologies
- Solving DSA problems on LeetCode
- Exploring software development projects
- Participating in coding challenges
